

Contribute to the future of water management in your area

The Cooks River Sustainability Initiative is part of Strathfield Council's commitment to sustainable water management. Council recently conducted a community water survey in the Strathfield South project area (known as a subcatchment) which includes parts of Strathfield South, Belfield, Greenacre and Chullora (see area marked on the Strathfield Local Government Area map below). We received a great response and are now looking for further community involvement in future water planning for the area.

You are invited to attend
Strathfield South Subcatchment Planning Forum
Thursday 27th November 6 - 9 pm

**Strathfield South Bowling
and Recreation Club**
40 - 44 Augusta Street
Strathfield

Strathfield Council area
Strathfield South Subcatchment

Come along if you are interested in:

- Protecting the Cooks River (stormwater from this area drains to the river)
- Planning for a sustainable water future in your area
- Thinking about how water might be managed in your area in 2050
- Building a long term local community water plan

RSVP: Madeline Hourihan
9748 9648
madeline.hourihan@strathfield.nsw.gov.au

- Parking is available at the venue
- Public transport: Bus routes 480 and 483.
- Transport can be provided on request
- **Catering will be provided**
